

# Critical Infrastructure Protection Training (CIP)

12-16 August 2013, W Hotel, Singapore

## Programme Snapshot:

The 5 day course will cover the following modules:

1. Introduction to CIP
2. Assessing Risk - Security Risk Assessment concept
3. Managing Risks - Considerations for protection of Buildings
4. Managing Risks - Security Considerations for People
5. Managing Risks - Security Considerations for Vehicles
6. Security Quality Control Measures
7. Facility Protection Planning Exercise
8. Self-Empowerment

## Who attends?

This workshop is relevant to security officers involved in the planning, implementation and maintenance of protective security measures for critical and 'attractive' installations such as airports, oil and gas, hotels, government facilities, military facilities, ports etc.

## Why attend?

1. Participants will be able to conduct a security risk assessment using International Models
2. Participants will be able to implement a security plan for a critical facility based on the findings of the risk assessments.

The objective of CIP is to provide participants with the fundamentals related to security planning and implementation considerations for critical facilities and to effectively manage the implementation through the development of self-empowerment skills of their security officers.

Topics covered in the Training:

1. Concept of assessing risks
2. Managing identified risks through security countermeasures
3. Implementing a good Security Quality Control system
4. Planning and Implementing a Facility Protection Plan
5. Empowering the people who will execute the Security Plan
6. Intelligence and Surveillance
7. Counter-Terrorism
8. Cyber - crime
9. CBRNE

Participants will not only be taught the fundamentals but will also be provided with a number of 'Hands-on' practical field exercises during the workshop, one of which will be a security planning exercise for the hotel where the workshop will be held. The workshop will be conducted by two of the most qualified practitioners in the region who will share their experiences and knowledge in this field.

## Consultancy Services

### Security Audits & Inspections

Security audits for Commercial Premises, Airports, Ports and Shipping Vessels.

### Regulated Agent Regime for Airfreight Security

Study, Development and Implementation of RAR in accordance to ICAO Annex 17.

### Hold Baggage Screening System

Study, Development and Recommendations for HBS systems in Airports and Ports.

## Corporate Security Training

### Bomb Threat Management

Understanding & Managing Security Threats

### Security Management

### Security Awareness for Employees

### First Line Crisis Mitigation

### Crime Prevention Techniques

### Campus, Hospital and Hotel Security

### Risk & Vulnerability Assessment

### Basic Investigations Course

## A Brief History of Airport Security

Between 1968 and 1972, hijackers took over a commercial aircraft every other week, on average. Not surprisingly, the golden age of hijacking coincided with some rather lax airport security. Things sure have changed. Here's a look at just how far we've come. [Read more](#)

## New passport technology on trial at Auckland Airport

A new high-tech passenger recognition system is being trialled at Auckland International Airport. The SmartGate Plus uses so-called 'face-on-the-fly' technology, which photographs a person as they approach the Customs gate to create a digital image to match against their ePassport. [Read more](#)

## Advocates see risk in cockpit doors

Safety advocates are ramping up the pressure on airlines to finish closing one of the security holes that played a role in the Sept. 11 attacks: breachable cockpit doors. That may sound surprising, especially given how quickly the airlines rushed after the tragedy to make doors stronger to withstand intruders, small arms fire and even some grenades. [Read more](#)

## Security officers ground 'suspicious' cargo plane in Kano airport

Reports indicate that a cargo plane that landed at the Aminu Kano International Airport has been grounded by security officers. Security operatives conducted a search of the cargo a few minutes after the plane had landed on Saturday morning. Though the content is yet to be disclosed, speculations among senior airport security officials is that the cargo was filled with 'suspicious' arms. [Read more](#)

## Bomb experts check out potential airport threats

About once a day, a passenger at one of South Florida's three major airports tries to take an item through security that could be mistaken for a bomb. Rather than evacuate terminals and alert police bomb squads, the TSA calls in explosive specialists, who will determine if it was a false alarm, allowing passengers to catch their planes. ### Explosion hits military airport in Damascus: activists

A huge explosion shook the Mezze military airport on the western edge of Damascus on Sunday, and ambulances were seen heading to the compound, a major base for President Bashar al-Assad's elite forces, activists said. It appeared that a booby-trapped car had exploded at a road block near the airport, killing or wounding around 20 members of Assad's forces. [Video](#)

### 'Dozens' of terror plots disrupted by NSA surveillance

U.S. intelligence officials said Saturday that National Security Agency surveillance programs have disrupted "dozens" of terrorist plots in the U.S. and more than 20 countries around the world. The statement about the thwarted plots was cleared for release by U.S. officials after requests that intelligence agency officials release more information about the surveillance programs to show their effectiveness. ### Cabinet fails to call price tag attacks "terrorism"

Prime Minister Benjamin Netanyahu opposes the idea of declaring the perpetrators of price tag attacks part of a terrorist organization, because they should not be compared to terror organizations such as Hamas, and by doing so, it would increase Israel's delegitimization and damage its international standing. ### Homemade Explosives Found After NY Apartment Blast

A New York man with a stockpile of homemade bombs was apparently drying explosive material in his oven when it exploded, leading to the evacuation of several nearby homes and his arrest, sheriff's investigators said. Crews responding to the blast found 30 to 40 pipe bombs and other explosive devices and firearms inside the apartment.

### Dubai Customs: Attempt to smuggle 65kg of narcotics foiled

Dubai Customs has led international efforts to foil a bid to smuggle about 65kg of narcotics seized at Istanbul airport in Turkey from a passenger arriving from Islamabad. Director of Airport Operations at Dubai Customs, revealed the details of the seizure, saying that customs officers at Dubai International Airport became suspicious when three bags on the baggage carousel from a flight arriving from Islamabad remained uncollected.
