

Critical Infrastructure Protection Training (CIP)

12-16 August 2013, W Hotel, Singapore

Programme Snapshot:

The 5 day course will cover the following modules:

1. Introduction to CIP
2. Assessing Risk - Security Risk Assessment concept
3. Managing Risks - Considerations for protection of Buildings
4. Managing Risks - Security Considerations for People
5. Managing Risks - Security Considerations for Vehicles
6. Security Quality Control Measures
7. Facility Protection Planning Exercise
8. Self-Empowerment

Who attends?

This workshop is relevant to security officers involved in the planning, implementation and maintenance of protective security measures for critical and 'attractive' installations such as airports, oil and gas, hotels, government facilities, military facilities, ports etc.

Why attend?

1. Participants will be able to conduct a security risk assessment using International Models
2. Participants will be able to implement a security plan for a critical facility based on the findings of the risk assessments.

The objective of CIP is to provide participants with the fundamentals related to security planning and implementation considerations for critical facilities and to effectively manage the implementation through the development of self-empowerment skills of their security officers.

Topics covered in the Training:

1. Concept of assessing risks
2. Managing identified risks through security countermeasures
3. Implementing a good Security Quality Control system
4. Planning and Implementing a Facility Protection Plan
5. Empowering the people who will execute the Security Plan
6. Intelligence and Surveillance
7. Counter-Terrorism
8. Cyber - crime
9. CBRNE

Participants will not only be taught the fundamentals but will also be provided with a number of 'Hands-on' practical field exercises during the workshop, one of which will be a security planning exercise for the hotel where the workshop will be held. The workshop will be conducted by two of the most qualified practitioners in the region who will share their experiences and knowledge in this field.

Risk & Vulnerability Assessment

Basic Investigations Course

China's Beijing airport hit in blast protest

A man in a wheelchair with an apparent grievance has detonated a small device at Beijing International Airport. The man, named by state media as Ji Zhongxing, 34, from central Shandong province, was injured and taken to hospital. No-one else was hurt in the blast, which filled part of the Terminal 3 arrivals hall with smoke. [Read more](#)

TSA: Keeping Travelers Safe by Inspecting Cars Left in Valet Parking

Now not only does the TSA thoroughly inspect your person and your carry-on bags – they can order an inspection of the car you left behind also. A New York woman was shocked to return home from a trip to find a notice on her car informing her that it had been searched after her departure from Greater Rochester International Airport. One Asiana victim killed by a vehicle, not plane crash: coroner

A teenage passenger on the Asiana Airlines jet that crashed in San Francisco died from injuries sustained after being run over by a motor vehicle, most likely a fire truck at the scene, local officials said. [Read more](#)

Travellers' mobile phone data seized by police at border

Officers use counter-terrorism laws to remove a mobile phone from any passenger they wish coming through UK air, sea and international rail ports and then scour their data. The blanket power is so broad they do not even have to show reasonable suspicion for seizing the device and can retain the information for "as long as is necessary". [Read more](#)

Brisbane Airport's security beefed up with upgraded ops centre

A new Australian Federal Police (AFP) operations centre has been officially opened at the Brisbane Airport. The new AFP airport centre is opening to help manage security with more CCTV links, better surveillance systems, and more space. Similar upgrades are also under way at the Cairns and Gold Coast airports to fall in line with national security standards. [Read more](#)

TSA Expands Plan to Shorten Airport Security Lines

Federal officials are planning the next big step in the effort to cut back on those killer airport security lines. The head of the Transportation Security Administration today revealed his agency is moving ahead with a dramatic expansion of the already-successful TSA Pre-check program to allow far more airline passengers to go through expedited airport screening. US drops unarmed bombs on Great Barrier Reef

Two American fighter jets dropped four unarmed bombs into Australia's Great Barrier Reef Marine Park last week when a training exercise went wrong, the U.S. Navy said, angering environmentalists. [Read more](#)

Karachi survivor admits to making bomb for Yaum-e-Ali

The lone survivor of an accidental bomb blast in Karachi admitted to making a bomb to be blown on Yaum-e-Ali. On July 20, an explosion in a flat in Karachi's Patel Para left three dead and one injured. The injured – now in police custody – revealed that he, along with his accomplices, was making a bomb when the explosives detonated. [Read more](#)

Panama charges North Korea weapons ship's crew

Panama has charged the crew of a North Korean ship detained in Panama after it was found to be carrying weapons. 35 crew members were accused of endangering public security by illegally transporting war material. The charges came just hours after North Korea urged Panama to release the ship and its crew without delay. [Read more](#)

U.S. eyes high-tech security boost at Canadian border

Could cable sensor along border stop smuggling, terrorism without slowing trade? A U.S. senator says a low-cost, high-tech cable sensor system could be planted along the Canada-U.S. border to boost security without impeding business. [Read more](#)

Australia puts bounty on people-smugglers

Australia said it would pay rewards of up to Aus\$200,000 (US\$180,000) for information leading to the conviction of people-smugglers, as it defended its tougher approach on asylum-seekers. PM Kevin Rudd announced that refugees arriving on unauthorised boats would have no chance of being resettled in Australia in a bid to stop the rush of asylum-seekers arriving by sea. [Read more](#)
