

Critical Infrastructure Protection Training (CIP)

12-16 August 2013, W Hotel, Singapore

Programme Snapshot:

The 5 day course will cover the following modules:

1. Introduction to CIP
2. Assessing Risk - Security Risk Assessment concept
3. Managing Risks - Considerations for protection of Buildings
4. Managing Risks - Security Considerations for People
5. Managing Risks - Security Considerations for Vehicles
6. Security Quality Control Measures
7. Facility Protection Planning Exercise
8. Self-Empowerment

Who attends?

This workshop is relevant to security officers involved in the planning, implementation and maintenance of protective security measures for critical and 'attractive' installations such as airports, oil and gas, hotels, government facilities, military facilities, ports etc.

Why attend?

1. Participants will be able to conduct a security risk assessment using International Models
2. Participants will be able to implement a security plan for a critical facility based on the findings of the risk assessments.

The objective of CIP is to provide participants with the fundamentals related to security planning and implementation considerations for critical facilities and to effectively manage the implementation through the development of self-empowerment skills of their security officers.

Topics covered in the Training:

1. Concept of assessing risks
2. Managing identified risks through security countermeasures
3. Implementing a good Security Quality Control system
4. Planning and Implementing a Facility Protection Plan
5. Empowering the people who will execute the Security Plan
6. Intelligence and Surveillance
7. Counter-Terrorism
8. Cyber - crime
9. CBRNE

Participants will not only be taught the fundamentals but will also be provided with a number of 'Hands-on' practical field exercises during the workshop, one of which will be a security planning exercise for the hotel where the workshop will be held. The workshop will be conducted by two of the most qualified practitioners in the region who will share their experiences and knowledge in this field.

- Basic Investigations Course

Asiana flight crashes at San Francisco Airport

A Boeing 777 aircraft that crash-landed at San Francisco airport killing two people did not have mechanical problems, an airline official has said. The head of the South Korean airline Asiana, Yoon Young-doo, did not rule out human error but said the pilots were experienced veterans. [Read more](#)

S. Korea, U.S. sign deal to boost ties on air cargo security

South Korea and the United States have agreed to strengthen their partnership on air cargo security. The allies signed a memorandum of understanding to enhance cooperation on "global supply chain security" that includes working together to strengthen air cargo security, developing new supply chain technologies, and conducting joint investigations, it said. Tampa International Airport Gets Technology Overhaul

There's a new way of looking at things at Tampa International Airport — visually and mentally. The airport is in the midst of a \$7 million project to install new digital signs. High-definition flat-screen TVs, video walls and other displays will broadcast a constantly updated stream of data to travelers: arrival and departure times, weather forecasts, anything that could affect their flights. [Read more](#)

TSA fills Instagram feed with photos of guns and grenades

With its new Instagram account, the U.S. Transportation Security Administration shows images of weaponry that people either forgot they had or tried to sneak past airport agents. So far, the TSA has posted only a handful of photos to Instagram. [Read more](#)

The dogs who will help you get through airport security faster: TSA to use bomb sniffing canines to speed up lines

The security lines at many airports are long and slow, and it looks like the Transportation Safety Administration agrees. The government agency has begun a pilot program using dogs to pre-screen passengers in security lines in an effort to hasten the pace of travel. [Read more](#)

Hawaiian Air unveils new state-of-the-art flight simulator

Hawaiian Airlines unveiled its new \$10 million flight simulator that will be used to train pilots flying the carrier's new Airbus A330 aircraft. The high-tech system will provide on-site training for about 250 pilots at Hawaiian's corporate headquarters and will help save the carrier about \$3.6 million a year. "This means that Hawaiian Airlines pilots can now complete their qualifications at our facilities here in Honolulu and our company can manage our cost as we continue to expand our business and sustain our position as a world-class airline," said Hawaiian Airlines' CEO Mark Dunkerley. Ministers face new terrorist human rights row

A convicted terrorist has delayed his deportation from Britain by more than four years by launching a legal challenge based on his "right to family life". His case will raise fresh concerns over the exploitation of the legislation, which was used by Abu Qatada to avoid deportation to Jordan for eight years. [Read more](#)

Tanzanian police arrest British 'terror suspect'

A British man suspected of terror offences has been arrested in Tanzania, police in the east African country say. Tanzanian officials said Assan Ali Iqbal was being held in connection with bombings in the north of the country. He is also suspected of involvement in terrorism in the UK, they said. He was held after he was found to be carrying a forged Tanzanian passport. [Read more](#)

US nuclear bombs 'based in Netherlands' - ex-Dutch PM Lubbers

Some 22 US nuclear weapons are stored on Dutch territory, says former Dutch Prime Minister Ruud Lubbers. Mr Lubbers, a centre-right prime minister from 1982-94, said they were stored underground in strong-rooms at the Volkel air base in Brabant. He made the revelation in a documentary for National Geographic - saying: "I would never have thought those silly things would still be there in 2013." [Read more](#)

Tighter security measures for Standard Chartered Marathon Singapore

Security for this year's Standard Chartered Marathon Singapore will be beefed up, in light of the recent Boston Marathon bombings. And expect higher participation fees too. Registration for the December 1 race started on Thursday. Some 62,000 athletes are expected to compete - an increase of 2,000 from the previous marathon. [Read more](#)
